## **District Disinfection/Sanitization Procedures**

The Oriskany Central School District follows very pro-active procedures when it comes to cleaning and disinfecting our school buildings and buses.

Our custodial department is equipped with a specialized spraying system that is designed to disinfect and sanitize all surfaces.

### **Buildings**

Each day, our custodial staff disinfects:

- Touchpoint areas (drinking fountains, door handles, light switches)
- Nurses Office

On a daily rotation by building, our custodial staff utilizes a Clorox Total 360 machine to disinfect:

- Each classroom
- Each bathroom

### **Buses**

- Buses are disinfected daily

The health and safety of our students, faculty, staff and building visitors is of the utmost importance to us and is a high priority year-round. During times of highly contagious seasonal viruses our efforts become much more focused with increased sanitization procedures.

### ***Board of Education***

*Adam M. Kernan, President*

*James P. Chase Carl V. Graziadei Therese M. Hanna*

*Michelle M. Anderson, V. President*
